GET YOUR ROSS LOGIN

The Student Life tab on iM pact, the Ross Intranet, is a password-protected website that allows access to useful information to prepare you for your transition to Ross. It is a valuable companion to your Admit Binder, which you will soon receive in the mail.

In order to log on you must first create a Friend account. Once you enroll at Ross you are provided a permanent uniqname (pronounced “unique name”) that you will use from that point forward, as a student and as an alum. During this interim period, you will use your Friend account. To get started, follow the steps outlined below.

Step 1: To create a Friend account, type the following URL in your browser: https://friend.weblogin.umich.edu/friend/

Step 2:
A. Enter your email address.
   Note: Please make sure you use the same address you provided in your application.
B. Click “Request.”

C. You will receive a confirmation message letting you know an email has been sent to the account you provided. The email message will contain a link to activate the account.
   Note: Please allow up to 24 hours for us to process your Friend account before you log in.
Step 3:
A. Check your email account (address you provided).
B. There will be an email* from friend-nonreply@umich.edu.

* Please note that if you receive a blank email (i.e., nothing appears in the "to," "from," or "subject" lines, or in the body of the message), you will need to forward the email to yourself. All information should then appear as normal.
C. Open the email and click on the Create Friend Account link.

Step 4:
A. Enter your email address.
   Note: Use the same email address you provided in your application.
B. Create a password.
C. Click “Set Password,” and you will receive an automatic response letting you know your Friend account has been created.
Step 5: Once you have set up your Friend account, you will see the following screen each time you log in.

Note: Your login ID is the email address you used to create the Friend account.

Step 6: Log in to the Student Life tab in iM pact:
